letin office.

## ARMY AND NAVY

### Two New Ones.

The bids for construction of two new battleships have been in the hands of the Bureau of Construction for the past week, and, under the direction of Naval Constructor Robinson have been carefully classified and analyzed. In reaching a decision, the board had to take into account, besides cost, the possible advantage of various combinations of power for propulsion and for operation. Thus the problems involved in combining possible uses of turbines and reciprocating engines were very great. The responsibility that rests on a board that has before it the decision of the many great questions to be considered in constructing the latest, largest and most powerful warships is so great that it may well justify taking much time in the task. The board met at 11 a. m. Aug. 27 with all members present, and at once took up the data laid before it by Naval Constructor Robinson.

Dismissed.  
Midshipman Russell Lockwood Kibbe of the second class at the Naval Academy has been dismissed in consequence of conduct unbecoming an officer and a gentleman, in passing checks on banks where he had no funds and for financial irregularities pronounced scandalous by his superiors. The case has been under consideration for several months, and a report was made to the Navy Department several weeks ago. Kibbe comes from Pennsylvania and entered the Academy in July, 1907. He accompanied his class on the summer cruise.

Aerial Bubble.  
Acting Secretary of the Navy Winthrop was unable to accept the offer of H. T. Jones of New York, who wanted to build an air battleship for our Navy capable of carrying twenty persons and enough ammunition to destroy the biggest fleet of warships that could be assembled. He told Mr. Jones there was no money available for such a purpose. Meanwhile Mr. Jones might build or borrow an airship, and then demonstrate how accurately his ship could drop dynamite at some speck on the water.

## GHOSTLY GIFT PUZZLES EVANS

## Mysterious Watch In Safe Awaes Genial John

Did some repentent ghost expiate its crime of a theft of a lady's gold watch in life, by returning it to the safe of John Evans after it was past all earthly retribution? John Evans, of the Bergstrom Music Company would like to know.

Evans has a private drawer and a private safe at the store to which there is but one key and that key is always in his own possession. Opening it one morning he extracted a lady's gold watch beautifully engraved which was not there when he closed the safe and there were no signs of polite safe breakers around. Evans blames it on a ghost although, to be sure, there was nothing ghostly about the watch.

Maybe the Dwellers on the Other Side went on a spree and put the watchethere by mistake but ghosts, goblins, kobolds, elves or ogres or the spirit of the Jags of Many Men, John Evans is a watch ahead.

## PROSPERITY'S SUN SHINES IN MANILA

Percy Warner Tinah, representing the Philippine Carnival Association the Rosenstock Directory and the advertising end of the Philippine Free Press, is a passenger on board the Mongolia on his way to the States.

Mr. Tinah states that the era of prosperity started in Manila and the Philippines immediately the new tariff bill with its free trade features became a law. He sees a great future for the islands under the new conditions, and he anticipates that within the next six months the mining enterprises now developing will create a flurry that will be heard throughout the land.

The carnival to be held February 5 to 14 is to be the great joy assembly of the Philippines, the echoes of which will be heard around the world. It is not anticipated that great numbers of Americans will visit the carnival, at the outset but they will learn from it that the Philippines are under the flag and going forward.

The Weekly Edition of the Evening Bulletin gives a complete summary of the news of the day.

# CASTORIA

for Infants and Children.

## Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen! We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse. It causes the blood to circulate properly, opens the pores of the skin and allays fever.

The signature of *Dr. H. H. H. H.* guarantees genuine Castoria.  
Physicians Recommend Castoria.

"I have used your Castoria in cases of colic in children and have found it the best medicine of its kind on the market." J. E. SIMMONS, M. D.,
